SPECIFICATIONS

Chameleon®

▶▶ Chameleon is both the world's best manual press and the world's first successful two-tier press. The optional patented Duo-Deck™ design allows Chameleon to print up to 14 colors in the space of an 8-color press. Combine Chameleon with M&R's Tri-Loc® or Double Tri-Loc® Rapid Registration Systems and any M&R automatic press, and you have the heart of the revolutionary M&R Textile Printing System™.

- 4 & 6-color models can be expanded up to 10 colors
- 8-color models can be expanded up to 14 colors without increasing floor space
- Compatible with most frames designed for automatic presses (perfect for sampling or future automation)
- Heavy-duty roller bearings
- Micro-registration with zero set point guides
- Multi-axis registration with dual off-contact adjustment
- Patented hinged arm assembly
- Solid aluminum, low profile pallets with pallet leveling system are interchangeable with M&R automatic presses

Sportsman™

▶▶ Sportsman is M&R's most affordable automatic press, and it's available with pneumatic, manual, pneumatic-ready manual, and servo index drives. Standard equipment includes M&R's patented Revolver Print Program™, which automatically operates individual printheads in programmed sequence and allows multiple flashing without losing a printing position.

- 6-color model
- 41 x 46 cm (16" x 18") maximum image area
- Central off-contact permits fast, incremental single-lever adjustment of all stations simultaneously
- Designed to fit through a 79 cm (31") doorway (optional)
- Digital microprocessor with self-diagnostics
- Optional Reno Flash™ integrates flawlessly with Sportsman
- Single/Double print stroke capability
